EDUCATION

ICT Associate Professional – Level 6 Apprenticeship

Oct 2024 – Oct 2026

DDLETB Tallaght – FIT Apprenticeship Programme

Dublin, Ireland

- Work-integrated learning programme combining academic study with professional software development at SAP
- Coursework in software development, databases, networking, and cloud computing

Leaving Certificate

Sep 2017 – May 2022

Le Chéile Secondary School

Dublin, Ireland

EXPERIENCE

iXP Student – Software Developer

Dec 2024 – Present

SAP – Software Asset Management (SAM) Team

Dublin, Ireland

- Developed a **Forecasting application** using **SAP UI5** with MVC architecture and OData services; implemented dynamic UI components including notification strips with conditional logic for open/frozen forecast periods
- Designed and executed a **79-case UAT plan** covering edge cases, role-based access (SPM vs Finance), and UI validation; coordinated testing across multiple stakeholders
- Built **Variable Management** for the IO Analysis Report (MVP2), enabling users to save/reuse custom filter combinations — proposed this flexible solution over the originally requested static filters
- Implemented complex frontend logic including rolling 4-period fiscal history filters, asynchronous OData calls with Promise handling, and frontend data validation before backend submission
- Currently leading front-end development of the **Publisher 360 Dashboard**, a comprehensive analytics view for software publishers
- Collaborated in **Agile/Scrum** with bi-daily stand-ups, monthly sprint planning, and retrospectives; deployed apps on **SAP BTP Cloud Foundry**

Duty Manager

May 2022 – Jul 2024

SSP Ireland & UK

Dublin, Ireland

- Supervised and trained a team of 10 staff; managed daily operations including stock control, cash reconciliation, and health & safety compliance
- Resolved customer complaints promptly and maintained service standards across high-volume shifts

PROJECTS

FOREVER | *Full Stack Web Application*

Personal Project

- Full-stack web application showcasing end-to-end development skills including front-end design, back-end logic, and database integration

Portfolio Website | *React, Tailwind CSS, Vercel*

Personal Project

- Personal developer portfolio deployed on Vercel at filipgalach.dev, showcasing projects and professional profile

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML, CSS

Frameworks & Libraries: SAP UI5, SAP Fiori, SAP CAP, React, Node.js

Platforms & Services: SAP BTP, Cloud Foundry, OData, Git, GitHub, Docker, Linux, Vercel

Developer Tools: SAP Business Application Studio, VS Code, Jira, Proxmox, Portainer

Methodologies: Agile, Scrum, Test-Driven Development (TDD), MVC Architecture

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900) – Microsoft

Jan 2026

AI Fundamentals – IBM SkillsBuild

Oct 2024

Web Development Fundamentals – IBM SkillsBuild

Aug 2024

Guided Learning Experience in AI – SkillUp Online / IBM SkillsBuild

Jun – Dec 2024

100 Days of Code: Complete Python Pro Bootcamp – Udemy (58.5 hrs)

Apr 2024

ADDITIONAL

Self-hosted homelab on Proxmox with Docker, Tailscale, and Portainer. Building a personal developer brand (Filip Dev).
Passionate about continuous learning and cloud-native development.
